FOR OPTIMAL ORAL HEALTH FOR ALL

75 YEARS OF EXISTENCE

ida Indian Dental Association

ANNUAL REPORT

2022-23

INDIAN DENTAL ASSOCIATION HEAD OFFICE

ida®
Indian Dental Association

Established in 1946, IDA is a premier organization of dental professionals in the country numbering over 74000. It is committed to promoting the art, science and practice of dentistry, and attaining optimal oral health as a sine qua non for improved general health in the country. Towards this end, it liaises with the government and other institutional agencies like the dental institutions and the corporate sector. IDA organizes various projects and programmes through its 34 State Branches and over 498 local branches and, in association with corporate agencies in the field of dental care and hygiene, educates and motivates the people on oral health and hygiene.

The main focus is on pioneering prevention and interception of dental diseases rather than cure. IDA is the common platform for interaction and exchange of information and skill. By its dedicated approach to promoting dental education and research, IDA has been championing the cause of oral healthcare and hygiene in the country.

Being the exclusive body of dentists in India, it effectively harnesses its vast resources aimed at attaining professional excellence in their day to day clinical and research activities and in making India the hub of oral healthcare destination of the world. Leading the country to optimal oral health reflects the drive, the energy and the leadership role of IDA in achieving the ultimate goal of oral health for all, besides promoting professional advancement of its members.

VISION

- To unfurl IDA's flag in each and every corner of the world as the authoritative and independent voice of the dental profession in India.
- To lead the country to optimal oral health and hygiene for all the people to improve the general health index of the country.
- To be the Education, Research and Training Centre aimed at promoting professional advancement and enhancing the image of the dental professionals.

IDA believes that healthcare, be it dental or general, is a basic human right that should be available to all irrespective of gender, race, religion or socio-economic status.

MISSION

- To make IDA the national, authoritative and independent voice of the dental professionals.
- To promote optimal oral and general health for all the people in the country.
- To safeguard, support, defend and protect the interests of its member dental professionals.
- To promote, preserve and uphold the ethical values and principles of dental practice.
- To contribute to evolving the oral health policy in the country.
- To improve the quality and delivery of dental services.
- To undertake education, communication, research, training and other support activities.
- To update dental professionals on clinical and technological advances.
- To partner other organizations in the promotion of oral and general health in the country.

IDA National President

Message from the President

Better Together with ultimate commitment for oral health, professional advancement

Indian Dental Association has shown great strength in adapting to the rapidly changing dental landscape and we have also honored our commitment in 2023 to lead the nation realize optimal oral health.

I am indebted to those who showed faith in me with their nomination. It has been an honor to be President of the Indian Dental Association and I am fortunate to see truly exciting developments this year with initiatives and activities organized to reduce the burden of oral disease as our members deliver and prioritize oral health and well being of their patients. This has ensured dentistry's preparedness to manage threats to oral health and well- being.

Our members are our greatest asset; I value meeting them at events and look forward to more interactions in the future. Ensuring that the interests of IDA's members are addressed is a priority for me as President. The changing technologies and the growing demands of globalization -- calls to enable members to develop their own professional careers and enhance their skills to provide quality service to the community. We have recognized excellence of individual members and branches through 'Performance Awards' which were distributed in recognition for their outstanding performance to further promote excellence of dentistry in India to bring about positive change to dentistry.

Oral health education and preventive care has been our focus to deliver good oral health outcomes. The momentum of activities conducted during 2023 establishes IDA as an enviable institution committed to dental excellence.

I am so pleased to report that IDA; today is on a firm footing as a resilient, resurging institution committed to dental excellence, a model worthy of emulation. The extent of our work would not be possible without the dedication, commitment of our members and the support of industry partners who have been vital for our oral health initiatives and have helped us spread awareness messages to as many people as possible. And I thank you all for your invaluable contributions.

Dr. Rajiv K. Chugh
IDA National President

Message from the Hon. Secretary General

One never notices what has been done; one can only see what remains to be done

Dr. Ashok Dhoble
Hon Secretary General

2023 was extremely productive, busy, enjoyable and an exciting year for Indian Dental Association (IDA). We today remain the undisputed and independent organization committed to taking 'forward' programmes for optimal health for all. As an Association, we remain committed to change and continuous improvement in order to sustain the tempo of success achieved during previous years with IDA contributing to a positive change in the oral health scenario in the country.

To maintain this status we have revamped our image, strengthened ties, fostered collaboration, started new initiatives and delivered unique cutting-edge scientific education programmes. We have also found new ways of serving our members, as we are at core dedicated to advocating for our members and for optimal oral health for all.

These demands require us to be innovative, agile and at the forefront – so we have revamped and reinvented our global image for greater visibility and reoriented the office infrastructure to meet the challenge. This called for consolidation of resources, maximization of opportunities in varied spheres to benchmark ourselves against the highest global standards to retain our competitive edge. This in fact spelled corporatization of IDA as our ultimate dream with our own independent office building and facilities. Organizational restructuring and effective deployment of staff to improve efficiency and effectiveness was the need of hour.

Over the last year we have increased our membership, streamline our operations, increased member services and community engagement, and provided high-quality education, training, and professional and wellbeing resources while simultaneously fostering creativity, innovation and enterprise to aid our members.

We have also meticulously built an incredible assortment of information databases with access information of IDA office bearers, both at State and Local Branches, national and international dental associations, conferences and workshops, dental colleges, universities, dental product manufacturers at our fingertips. This is vital for systematic planning and execution of various programmes and projects.

Users find our website easier to navigate and get the information they need as efficiently as possible. The website is being improved continuously to optimize the user experience and provide all the latest news and knowledge in dentistry, as well as best practices in oral health.

Finally, I want to thank all our staff and members including our partners for supporting the Association in all its varied activities over the last year. I look forward to an even better and brighter 2024!

Sincerely

Dr. Ashok Dhoble

ACCEPTED

The IDA seal of Acceptance is an evidence of product safety and efficacy. The seal on consumer products presents the fact that the products have been assessed by expert panel, found to be safe and in compliance with good manufacturing practices.

IDA and its Activities: Performance Review

Be the change you wish to see in the world

IDA and Commitment to Dental Excellence

Our avowed objective is to sustain the tempo of success achieved over the past few years and to place IDA on a firmer footing as a resilient, resurging institution committed to dental excellence, a model worthy of emulation. Members are well aware that the twin goals that set IDA apart from others are the attainment of optimal oral health for all, and promotion of professional advancement of members, not to speak of our sincere endeavour at establishing IDA as an organization of professional repute.

To create an environment that enables us to secure optimal oral health for all while promoting programmes for professional advancement of its members would necessarily call for changes in the our strategies. Change is the essence of growth, and consistent with this change, we need to move forward in the furtherance of our goals. The changing technologies and the growing demands of globalisation of a dynamic and competitive environment bring in their wake newer challenges which need to be addressed suitably to enable members develop their own professional careers and enhance their skills to provide quality service to the community.

Consistent with this aim, IDA has been focusing all its efforts at changing things and moving forward for the better while endorsing continuity to sustain the momentum of activities that have established IDA as an enviable institution committed to dental excellence. Its strategy of pioneering prevention has, to a great extent, contributed to a change in the oral health scenario in the country for the better. And this has made IDA remain as the undisputed and independent organization of the dental profession in India committed to taking “forward” programmes that create a better dental health environment in the country.

Infrastructure

Expansion in activities and the need to present a global image called for revamping and reorienting the office infrastructure to live up to these new challenges of globalization. Consistent with the changing environment, there was also the accompanying need to gear up and reinvent itself to ensure that IDA continued to remain in the forefront. This growing need, also called for consolidation of resources, maximization of opportunities in varied spheres and benchmarking itself against the highest global standards to retain its competitive edge. Expansion of office space, introduction of state of the art office equipment and gadgets, including fresh recruitment of qualified and competent staff, were necessitated by this growing need for change, particularly in the light of IDA’s expanding activities and the need for greater visibility.

Being the national office, it was necessary for IDA to create an indelible image as a corporate office where only serious business took place. While corporatization of IDA is the ultimate dream, the need for IDA to have its own independent office building and facilities cannot be overemphasized. Organizational restructuring and effective deployment of staff have ensured better functional integration and coordination of activities to improve efficiency and effectiveness.

With the international collaborative effort in place and having imbibed the aura of a global set up, IDA Head Office has moved away from being a mere administrative unit to one with global perspectives. In doing so, it has given itself a new image and a new goal that of promoting professional advancement of members and generating improved oral healthcare awareness among people. All these developments translate IDA into a more vibrant organization of professional excellence.

IDA and Development of General Database

"Things get done only if the data we gather can inform and inspire those in a position to make a difference"

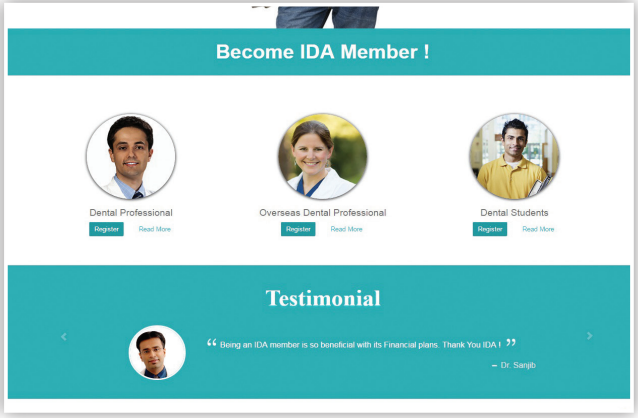
Development of an effective and efficient database management system is the cornerstone of any activity expansion. Hence it's important to meticulously build an incredible assortment of information database and its effective management and skilful execution. The extraordinary expansion in IDA's functions and programmes, underlines the importance and need for the development of a database management system. To facilitate prompt functional integration and coordination of activities, IDA has set up a well managed and proficient system of data management.

The data management system developed by IDA, in addition, permits access to a vast body of dental personnel in the country and data pertaining to their gender, qualifications, specialities, and deployment. In short, the data management system developed has enabled IDA to better organize its membership registrations and renewals, continuing dental education programmes and a host of such other activities with apparent ease hitherto unknown.

Refinement and sophistication of the general database is another noteworthy activity that the IDA can be proud of. Such a database structure is an important tool to manage and use an incredible variety of information that an expanding organization like IDA is faced with. Members are aware that such an advanced software system facilitates better accession of data and smooth office administration.

This general database bestows a storehouse of data relating to various segments: dental manufacturers and their products, suppliers, video libraries, placements, forthcoming events, list of dental colleges and universities, dental laboratories and what not. The e-trade-fair-cum-directory services enable traders and manufacturers of dental products and laboratories to place their products and services on the directory to secure a wider outreach of potential clients. And it is a facility increasingly being availed of by all concerned.

Members are aware the advanced software systems developed have enabled IDA to access data of IDA office bearers, both State and Local Branches, national and international dental associations, conferences and workshops, dental colleges, universities, dental product manufacturers, and the like. A range of other software packages intended at instituting systems and procedures for improving efficiency and performance standards and improving communications have also been developed. While this has, no doubt, enabled IDA in ensuring better communication with its members and the various branches, it has also helped in the systematic planning and execution of various programmes and projects.



IDA and Membership Development

The more effective and wider its membership base, the stronger is an organization

The Goal

Sustenance of any institution depends on the inherent strength of its members and how wide its base is. The membership development goal clearly is to widen the membership base with a view to building a strong organization of dental professionals committed to the cause that IDA stands for. Towards this goal, membership development assumes considerable significance. Membership development is critical to the future of our association inasmuch as attracting new members, retaining them and motivating their involvement is fundamental to organizational growth. IDA aims at becoming a global knowledge centre that builds synergies between education, research, and dental enterprise. To attain this goal, IDA has been working through its dual missions of excelling in education, research and service, at the same time fostering creativity, innovation and enterprise to aid the community and the fraternity. To realize this goal, it is essential to build a broader and stronger foundation with young and willing people who are always eager to carry the torch with a missionary zeal. Attractive privileges are on offer for the aspiring members which the member can avail of with the aid of IDA Membership card.

Membership drive

The membership development drive, in essence, is motivated by the eagerness to put the Indian dental community on an equal footing with similar global institutions. As the needs of the fraternity grow, so must its membership to address these emerging needs. With the ever increasing number of dental practitioners in the country, the prospect for broadening the present membership base brooks no delay. For, membership of IDA enables (a) learning of, and getting an insight into, global trends that have a bearing on the dental profession; (b) sharing of one's best practices with other professionals; and (c) enhancing professional competence. It also helps the member to get involved in important initiatives of IDA like the Tobacco Intervention Initiative, National Oral Health Programme, Oral Health Month, CDE and the like.

Growth in Membership

IDA endeavours to create and sustain an environment conducive to the growth and development of potential young dental professionals in the country and their involvement in the affairs of the Association. Membership of IDA facilitates establishing synergies with business and corporate bodies engaged in the provision of oral healthcare services which reinforces this prospect. On the back of several incentives and benefits, membership has grown appreciably in the past few years and the big challenge ahead now is that of ensuring regular renewals, updating of personal information of members and the like.

Branch secretaries are privileged to update information of members of their respective branches. Nonetheless, considering the large number of dentist population in the country, the present membership strength, substantial though it is, leaves much to be desired. Hence vigorous efforts to carry on the membership drive with a view to ensuring significant additions to the existing number need to be sustained. Developing a list of practical techniques and strategies for increasing membership that have proven to be successful and which are appropriate to the cultural and economic needs of members is the need of the hour.

Student Membership

The privilege of IDA membership is open to all dental students. It might interest members to know that student membership has shown a consistent increase in the last couple of years. It is not an exaggeration to say that IDA provides numerous opportunities exclusively meant for students for expanding their knowledge and exhibiting their talent and scholarship.

As on December 2023 the student members numbered 1597 IDA membership offers the student community a platform to discuss topical issues or important matters in dentistry including dental education ranging from reforms in undergraduate education and career options to the influence of international policy on health, new treatment techniques, etc.

IDA Students' Wing in Colleges

With a view to augmenting student membership and increase student participation in IDA activities, efforts are on to form student wings in dental colleges. Presently there are 329 colleges enrolled for the purpose of augmenting membership of students

and efforts are being made to bring more number of colleges into the fold of Students' Wing. The dean/principal of the college or Senior Faculty Member / College Student Secretary with student members shall form the IDA Students Wing. The IDA Students' Wing will be demographically located within the college or university campus. The IDA Students' Wing shall function independently under the auspices of HO and remain affiliated to IDA Local branch and IDA state branch of the respective demographic regions. The Students' Wing shall abide by all rules and regulations of the Association.

IDA and International affiliations

The rapidly changing dental scenario across the globe and the resultant globalisation of dentistry bring in its wake constant challenges that call for frequent reassessment and revitalisation of IDA's professional approaches to bolster its image and visibility. Building partnership with international dental institutions and forging alliances with professional bodies have enabled IDA to keep pace with these sweeping global changes. It has also enabled IDA to remain in the public eye garnering support and global visibility. However, it must be said to the credit of IDA that it has been able to profitably and effectively face the challenges of globalisation and its impact on clinical practice admirably.

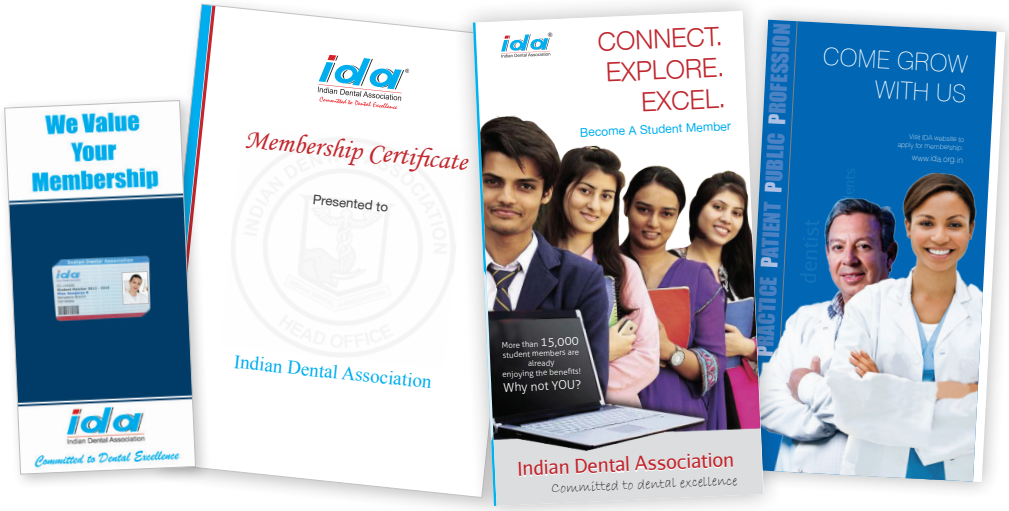
To remain in the eye of global partners, IDA has affiliation with renowned global associations such as the Federation of Dentaire International (FDI World Dental Federation), the Commonwealth Dental Association (CDA) and the International Association for Dental Research (IADR), etc. It must be said that this affiliation has immensely benefited members. The strong and formidable alliance with these global agencies has opened the way for quite a few of our members occupying important positions. IDA congratulates them and would like to express its gratitude to the members for their whole-hearted cooperation and support to move ahead in these spheres.

Members are well aware that organizations these days are known by their branding strategy. Brands play an important role in marketing the organization and its services. Members might recall that consistent with its ubiquitous brand image and the various projects that IDA has been undertaking separate logos, unique to each specific activity being undertaken, have been developed. However, in keeping with its growing importance and expanding role, IDA has now developed its own unique Brand. The Brand IDA gives it a distinct identity aimed at projecting a singularly exclusive symbol to reflect the visual image of IDA to garner greater visibility and prominence. The IDA logo also gives it a distinct identity which has been greatly appreciated by one and all.

Branch formation

One of the indexes of growth of an institution is the formation of branches. In keeping with the expanding role of IDA, Nineteen branches have been established during the year under review. The new branches opened included:

Andhra Pradesh State – IDA Konaseema Branch, IDA Krishna Branch, Bihar State – IDA Madhubani Branch, IDA Nawada Branch, IDA Supaul Branch, Chattisgarh State – IDA Raigarh Branch, Delhi State – IDA Dwarka Branch, Jammu And Kashmir State – IDA Kashmir Central Branch, Karnataka State – IDA Suncity Kalaburagi Branch, Kerala State – IDA Guruvayur Branch, Madhya Pradesh State – IDA Vidisha Branch, Maharasthra State – IDA Camp-Kondhwa Branch, IDA Daund Branch, Odisha State – IDA Cuttack Silvercity Branch, IDA Royal Branch, Punjab State – IDA Zira Branch, Tamilnadu State – IDA Hosur Branch, IDA Melmarruvathur Branch, IDA Tiruchengode Branch, Uttar Pradesh State – IDA Ambedkarnagar Branch, IDA Sonbhadra Branch.



IDA and Voice of The Dental Profession - IDA Publications

The publications, the fountain head of conceptual thinking, act as catalysts for change

IDA Publications

Publications are the fountainhead of conceptual thinking and act as catalysts for change. IDA publications are in no way different. IDA publications cover a wide range of dental subjects and events, both clinical and non-clinical. They reflect not only the scientific advancements in dental science but also the state of the art technology and dental products that have great significance for dental practitioners. They provide a platform to the dental professionals to publish and share their valuable experiences and clinical skills.

Members would be happy to note that the House of IDA Publications has been bringing out all these monthly publications on a regular basis and it would do the publications a tower of good if more and more members get involved both in terms of subscriptions and by way of contributions to these publications. Members could make use of the detailed guidelines developed for submission of articles online. It may not be out of place to mention here that members must increasingly make use of the online facility for submission of articles. Members interested may be able to access the guidelines by making use of their membership number to log in.

The IDA Times

The IDA Times, reflecting the authentic and official voice of the dental profession, caters to the ever growing knowledge needs of dental professionals for career advancement. It is a reliable companion of the dentists and enhances their image.

The publication has developed a unique role in continually educating the dentists in the country and keeping them updated of the global changes taking place in each speciality of dental science. In doing so it has done admirable and laudable service to the dental profession in the country while, at the same time, sustaining the tempo of an expanding dental market and dental profession in the country.

Providing tremendous service to the dental community, The IDA Times has now entered its nineteenth year of publication and has developed a unique role in updating the dentists in the country. Beginning with a modest circulation, The IDA Times has shown a steady increase in its readership and subscription besides remarkable improvement in quality and presentation. It is a standing monument to what team work can achieve.

Journal of IDA - JIDA

Journals based on original research are the backbone of health sciences. There are no two opinions that clinical research and related issues are of paramount importance to the dental community. The Journal of Indian Dental Association (JIDA) is a veritable example of this. It makes a strong statement that research articles and related issues are considered the most invaluable for the clinicians for their practical use. It provides a platform for eminent dentists to publish their research and findings in different fields of dentistry. The focus mainly is on research and clinical trials on dental materials, instruments, new procedures and techniques, cosmetic and restorative materials, clinical studies on various dental diseases and their treatment.

During the past few years JIDA has made great strides as a publication of immense research value. It is a matter of great satisfaction to report that the journal is being well received by the students, academicians and research scholars alike and the articles on the various facets of dentistry are greatly appreciated.

Clinical Dentistry

Dental science is evolving at a rapid pace, developing newer concepts and, in the process, opening up fresh avenues for further research. In this knowledge era, a scientific journal essentially needs to measure its quality and standard by benchmarking itself against leading publications of such genre. The constant search for excellence in dentistry remains a big challenge, indeed. Our mission is to render timely assistance in fulfilling the growing need for, and higher expectations of, professional dental services to improve quality. Clinical Dentistry fills this goal by capturing the remarkable changes taking place in global dentistry and bringing them to the clinical practitioners for their use. Obviously, the aim is to bridge the gap between fundamental and applied clinical expertise in dentistry.

Clinical Dentistry is committed to continuously bringing new discoveries, research findings as also exploring new ideas, methods and advanced technologies along with the various dimensions of learning in dentistry. The last decade and a half has seen tremendous progress in dental science and the journal reflects the numerous technological advancements, materials, and techniques in the field of clinical research to enable the dental professionals to make use of them in their clinical practice.

Oral Health

The publication on Oral Health addresses the oral health issues of the people. By educating the public and by providing information on the basics of teeth and their care, it has been contributing immensely to raising oral health awareness in the country. It underlines the importance of oral health in the general well being. Seized of the essential need to improve oral healthcare and hygiene and to continue its drive for better oral health, the publication brings out issues appropriate to the need of various segments of the population in an effort to make oral health a part of the national oral health policy. The publication is an attempt at sustaining IDA's efforts on improving oral health in the country through the print media. It marks a new beginning in generating greater awareness and improving oral healthcare and hygiene in the country.

Student Digest

The publication 'Student Digest' is exclusively devoted to dental students and their needs. It addresses all those issues which a student is usually agitated about and assures the young students about the scope of their future. It guides the students about the umpteen opportunities available to them, including the financial support to pursue their studies in the different disciplines of dentistry. It also tells as to how to prepare for the entrance exams, so as to stay a step ahead of the others. It provides a platform for sharing of knowledge and information, on matters of academic and clinical importance, careers, dental research, healthcare systems, fostering communications and personality development. In a nutshell, it can be said that this publication carries in itself a compendium of information needed for the aspiring young minds, desiring to make a mark in life, despite any obstacles that they may have to face. It prepares bright young minds to face the challenges of future. Greater involvement of students will certainly help improve the quality of the publication. Greater involvement of students in determining the content and substance will certainly help improve the quality of the publication meant for them.

Need for support

Be that as it may, the circulation statistics of these publications presents a dismal reading and needs to be improved. Members need to play a great role in making these publications self-sufficient. Members are also aware that cost of everything has been on the rise of late and what goes up seldom comes down! As an exercise in cost cutting we have developed in-house expertise, managing designing and art work internally. However, what has been causing concern is the inadequate support to these publications by way of subscriptions to enable the publications to break even and become self-sufficient. IDA hopes that its members would increasingly patronise the IDA publications through regular subscriptions to make them break-even and become self-sufficient. The success of IDA publications is an accomplishment, and a reflection, of the dedication, commitment and devotion of its editorial team, printers and publishers who deserve to be complimented.

Indexing of Publications

Members are aware that Indexing of IDA publications is a matter that has been engaging the attention of your Association for some time now. An indexed journal is also the choice of authors for article submission. Indexing facilitates the broadest dissemination of information as a result of citing of the articles published in the journal.

Indexing of publications has been done with a couple of agencies such as Copernicus, Genamics, Cosmos Foundation. However, further efforts are on for indexing of Clinical Dentistry and JIDA with PubMed which provides links to many sites providing full text articles and other related resources. JIDA is now a part of the UGC-CARE (University Grants Commission of India - Consortium for Academic and Research Ethics) list of Journals. The objective of UGC-CARE is to promote high quality research and knowledge content from faculty members, researchers and students.

IDA Website

The eternal access to an unending and inspiring world of knowledge and information

Members are aware that a website of an institution is the gateway to valuable information on the institutional structure and its activities, besides offering its members an easy access to its vast database.

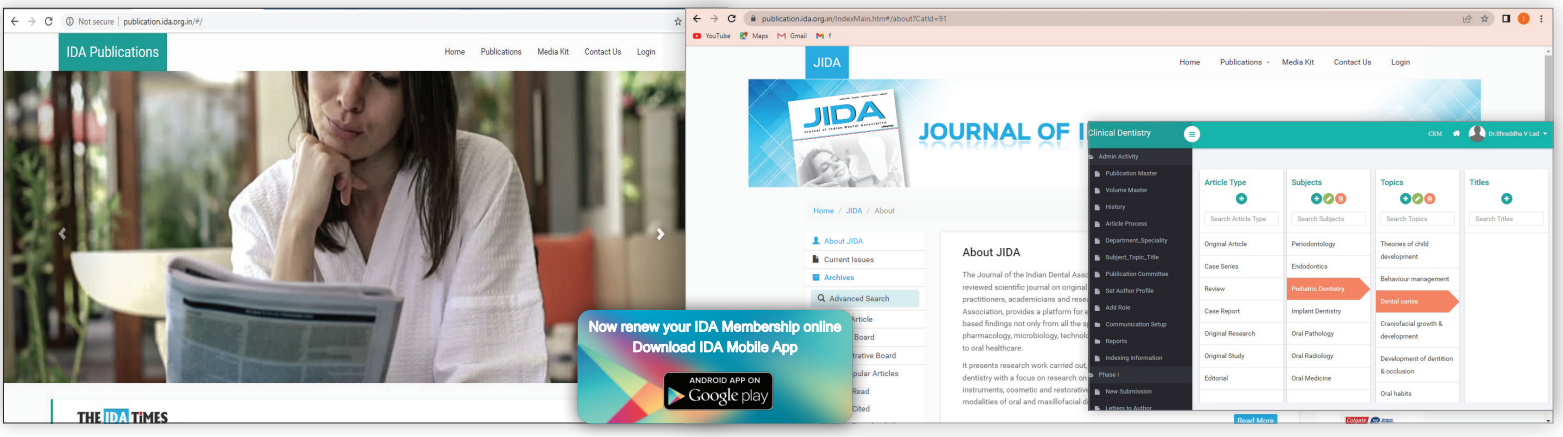
It was felt necessary to incorporate appropriate changes in content, design and presentation and provision of appropriate links for the avid and interested browser to gain more knowledge and information about IDA and its activities. It embodies in various sections and modules activities of great significance, both to the dental profession and the community. Sections specifically dealing with special programmes such as National Oral Health Programme, Cleft Lip and Palate, Healthy SmileHappy Smile, Swachh Mukh Abhiyaan, etc. , and projects such as SPOT Centres and TCC Centres were also launched aimed at promoting awareness on oral cancer and tobacco intervention. They serve to signal IDA's commitment to the community. IDA can proudly claim the website to be unique and one of the best in the world of web firmament.

I must appreciate the valuable cooperation and support received and the sustained efforts put in by a team of dedicated computer professionals in completing the task on time, despite the innumerable problems and difficulties encountered. I have no words to express my gratitude to these young talented professionals who put, above all, IDA before them and worked tirelessly to complete their assignments.

These are days when organizations have their own dedicated mobile app. IDA has not lagged behind. We have developed and launched the IDA Mobile App which can easily be downloaded on any Smartphone. It will be very useful for our members on-the-go as all relevant information we need to provide is at their fingertips. IDA's forward-thinking approach in bringing out the Mobile App has not only improved its brand image but also enabled it to improve its member/customer engagement and loyalty. Constant upgrades and new features are being added to make it more user-friendly to our members.

With the revision and expansion of the IDA website, a huge database has been created which, in a way, provides the KEY to the world of dental exploration. So, welcome to the exceptionally special site and let your journeys into the hitherto unexplored world of exciting dental discoveries begin. We have it for you all under one roof, the unparalleled and spectacular world of IDA WEBSITE!.

I must appreciate the valuable cooperation and support received and the sustained efforts put in by a team of dedicated and committed computer professionals in completing the task on time, despite the innumerable problems and difficulties encountered. I have no words to express my gratitude to these young talented professionals who put, above all, IDA before them and worked tirelessly to complete their assignments.



IDA and Oral Health Development Programmes

Dr. APJ Abdul Kalam Education & Research Centre and Super Speciality Dental Clinic

Members are well aware that IDA's aim is to become a global knowledge centre that builds synergies between education and research, as also dental enterprise. Towards this goal it has been working through its dual missions of excelling in education and research besides rendering community service, fostering, at the same time, creativity, innovation and enterprise to aid the fraternity and the community. Members are aware that while the Research and Education Centre will focus on dental research and knowledge enhancement to facilitate professional advancement, the Super Speciality Dental Clinic will provide advanced dental procedures, where the underprivileged would receive free treatment – a tribute to its founding father, Dr. Rafiuddin Ahmed.

CCRP
Comprehensive Clinical Residency Programme

Comprehensive Clinical Residency Programme

The Comprehensive Clinical Residency Program (CCRP) stands out as an exceptionally extensive General Dentistry programme by IDA. It offers participants access to state-of-the-art facilities, enabling them to engage in hands-on practice with a substantial patient pool and under the guidance of highly qualified academic staff. CCRP drives dental professionals from a point of underconfidence to excellence as they get led by the best mentors in various fields.

The curriculum promotes the constant pursuit of knowledge covering every aspect of clinical dentistry, including Rotary Endodontics, Fixed Prosthodontics, Exodontia and much more.

About Our #CCRPfam

For the past year, IDA has been a valuable educational platform for over 10 batches of Clinical Residents, with over 100+ graduates who have gone on to either own their own clinics, practice independently, or pursue their professional goals overseas.

Research Projects of IDA 2023

Indian Dental Association focuses and promotes research in all aspects of oral and related sciences in order to improve prevention and treatment of oral and dental disease; improve the public oral health by research, cooperation and translation and implementation of the research findings.

Evaluation of performance and safety of 3-D Scaffold Matrix

A six-month duration clinical investigation was started on November 17th 2023 for evaluation of 'Performance and safety of 3-D Scaffold Matrix' – a class C medical device bone void filler for alveolar ridge augmentation used in implant dentistry under – project lead Dr Ashwini Bhalerao, Co-project lead as Dr Monisha and Dr Shruti as project coordinator. The collaborators/sponsors for this project are EffecMed Pvt Ltd.

This is a multi-center, prospective, open-label, assessor-blinded, randomized, controlled, pivotal clinical investigation involving a randomization procedure. Two groups are created and if a subject is randomized to group 1, he\she would be implanted with a test product; while participants in group 2 will be implanted with Bio-Oss, an approved marketed product. Next the products will be compared for similar or best results. For entering into this study the participants are checked for eligibility for entry. If eligibility criteria are met, the following data is collected like their personal details such as date of birth and gender followed by medical and dental history. No direct names will be captured. All the required laboratory tests including blood examination, plain dental X-ray, and CBCT scan are conducted. These questionnaires are taken mostly during the 4 visits. The total study duration for each participant is about 4 months (5 visits).

We are at the moment conducting subject recruitment with active screening.

Maharashtra Oral Cancer Control Project

IDA's Oral Cancer Foundation expanded the scope of 'Oral Cancer Screening Programme' since 21st November 2021 for a duration of 2 years. IDA in collaboration with Karkinos Healthcare Pvt Ltd, Tata Memorial Hospital, and other implementing partners screened beneficiaries from Mumbai and nearby areas under the 'Maharashtra Oral Cancer Control Programme'. This programme aims to detect oral cancer among the high-risk 18+ age groups, by early detection of oral in order to increase the survival rate and reduce treatment costs. The goal is to increase oral cancer awareness, screen patients for early detection, motivate them to quit and ultimately reduce the mortality rate. Under the project lead Dr. Aparna Kokode, during two years approx. 50,000 participants were scanned and almost 40% of scanned people were consumers of tobacco both in smoked and smokeless forms.

Habitual users of tobacco were counseled for tobacco cessation during camps organized in Pune and Mumbai RTO; during course of 5 week 1,929 individuals were counseled. Out of these participants 1,778 were male and 151 were female; 371 individuals were found addicted to particularly smokeless tobacco. 1.2 % of 24 participants were diagnosed with precancerous lesions. At this camp majority of habitual users were drivers, and used tobacco or gutka as a stimulant to keep awake and reduce stress level. All the participants habituated to consuming tobacco were referred to nearby hospital for further testing and tobacco cessation counseling. Current results are being analyzed and closure report is being prepared.

Evaluation of the Safety and Efficacy of PoroSyn

An evaluation of the safety, efficacy and stability of PoroSyn (a synthetic bone graft used in Alveolar Ridge Augmentation) to correct oral and dental intraosseous defects was conducted in

2019. PoroSyn is a largely porous bioactive glass material used for alloplastic bone grafting and is composed of elements naturally occurring in bone (Ca, Na, P, O). This 1-year study evaluated the safety of using Porosyn in humans; assess performance of this product for bone regeneration for implant placement. The study was sponsored by SynThera Biomedical Private Limited and BIRAC.

The study was performed following the principles outlined in the Declaration of Helsinki on experimentation involving human subjects. The subjects were informed about the study protocol and were required to sign a consent form. Randomization procedures were carried out to assign patients to a treatment group (G1) who will receive PoroSyn graft after extractions into sockets (intrabony defects) and control group (G2) where the sockets were left to heal naturally. The teeth were extracted atraumatically using a flapless, minimally invasive technique. The clinical assessments and procedures as prescribed in the protocol were performed at each visit. A sample size of 30 participants was selected.

The project lead Dr Nilay conducted this evaluation at a single centre, open label, randomized, comparative pilot study; Dr Nidhi was the project coordinator. Currently the results are being analyzed and closure report is being filed.

Upscaling the Whole Mouth Health Advocacy

Another IDA's project aims at upscaling the 'Whole Mouth Health Advocacy and Capacity Building' project based on Vision 2030 for Sugar Control in India supported by FDI's World Dental Development Fund Project. This is a 1-year project sponsored by FDI's World Dental Development Fund started in December 2022; aiming to raise awareness of the detrimental effects of sugar and promote capacity building among dental colleges to address the issue of increased sugar consumption. The project encompasses webinar series along with engagement activities. A series of webinars offering valuable research insights and discussions on oral health and sugar control advocacy were organized in India. The role of Dental Colleges' deans and faculties in creating 'sugar-free dental college campuses' was chalked-out. Interactive activities, including poster and slogan contests to promote sugar-free campus and detailed reporting from colleges were organized.

The project lead was Dr. Lakshmi Balraj and project coordinator was Dr. Saloni Shetty. The project has been completed and closure report is being drafted.

Oral Health Observatory

Workshop on the Oral Health Observatory Project with FDI and Haleon's Task Force was conducted at IDA HO on February 11 and 12, 2023. The workshop was conducted in the presence of Dr. L. Swasticharan (Additional DDG and Director (EMR) in the Directorate General of Health Services, MoHFW, Govt. of India), Dr. Nalika Gunawardena (Technical officer (NCD) – Oral Health Department World Health Organization), Dr. Ashu Gupta (Member of Dental Council of India), Paula Anabalon Cordova (FDI Staff), Prof Sarah Baker (Sheffield University-ONLINE), Prof David Williams (Chair of the FDI Science Committee-ONLINE) and Dr. Stephen Mason (Global Medical Lead: Oral Health HALEON). The pilot project and workshop has been completed; the Advocacy report has been submitted to FDI with the beginning of designing the implementation plan for phase II of the OHO project (India Chapter) under project lead Dr Lakshmi. The collaborator/sponsor are FDI and Haleon.

Post-Marketing Surveillance Studies for IDA seal of Acceptance

IDA has more than 75,000 dentists registered under its wing; hence we plan to tap this vast network to initiate product testing procedures for Pharmaceutical Companies, Allied Associates and Nutrition & well-being companies. IDA also can function as Site Management Associate, typically associated with clinical research, particularly in the pharmaceutical or biotechnology industry. A project of 3 months for conducting studies (1 herbal non-fluoridated toothpaste for adults & 1 fluoridated toothpaste for children) are being filed for the upcoming ethics review meeting. The project supervisor is Dr Lakshmi, key clinician Dr Minal and project coordinator is Dr Tanvi.

National Oral Cancer Registry

An ongoing initiative of IDA is the leading registries of India is National Oral Cancer Registry working in tandem with the initiatives of ICMR and NCDIR to collect and classify information on all oral cancer cases as well as pre-cancerous lesions and conditions from across the country. 68+ dental colleges and 5000+ dentists are registered on NOCR. The faculty in-charge is Dr Lakshmi Balraj and coordinator is Dr Pranav.

Survey Hub

IDA's Survey Hub has been designed to collect data for building evidence on various thematic areas in dentistry. This comprises 2

components – Survey Poll and Multicentric survey questionnaires. Until now, 16 survey polls and 1 multicentric survey study have been completed under this ongoing initiative. The project lead is Dr Lakshmi Balraj and coordinator is Dr Shruti.

Conference and Advocacy Workshops

Conferences and workshops organized by IDA have been the most impactful events in dentistry. These are innovative, sustainable providing avenues for inspiration, collaboration, networking, learning, and engagement in the most inspiring environs possible. IDA seeks to inspire dental professionals with fresh ideas in sustainability and innovation while fostering fruitful connections between individuals.

Conference: Oral Health Innovations Conclave 2023

Oral Health Innovations Conclave a conference was held on 25th-26th March, 2023 Manekshaw Centre, Delhi to establish a specialized research ecosystem for dental evolution and communication. This two-day event presented a unique scientific programme, consisting of outstanding keynote lectures, state-of-the-art symposia and oration lectures as well as poster, case and table presentations by researchers, innovators, entrepreneurs and experts from India and beyond. The conclave received massive support from the governmental bodies and international organizations. The event witnessed massive contributions from across the globe through 5 Country Pavilions (Switzerland, France, USA, Finland, and Korea), 76 Erudite Speakers, 41 Scientific Sessions.

The person in-charge was Dr. Nidhi. There were in total 50 exhibitors; the break-up being 46 exhibitors from India and 4 from abroad. The conference witnessed a footfall from 2413 delegates; 1278 on the first day and 1135 on the second day of the conference. In a total there were approx 350 presentations; 170 paper presentations, 150 poster presentations and 30 table clinics. At this conference 8 colleges participated, 4 colleges, 4 sponsors, 14 start-up companies, 23 individual (Table Space) and 1 innovation cave.

Amalgam Phasing Down and Sustainability Workshop

In the wake of the hazardous scenario of amalgam usage in dentistry, Indian Dental Association (IDA) as a part of its endeavor to support the national government in its efforts to achieve the phasing-out of Mercury by 2025; conducted an awareness workshop on 11th February, 2023 at IDA's Head Office, Prabhadevi, Mumbai; to apprise dental professionals of the challenges and hazards of using Mercury based products and also come out with

a declaration to phase out of Mercury in the future. The workshop was conducted under the charge of Dr Dharti.

IDA is exploring partnerships with relevant Ministries of the Government of India and WHO India to technically support the awareness generation session for Dental professionals. The outcome was a declaration released with consensus among the different stakeholders. IDA contributed to the COP5 of the Minamata Convention on Phasing out of amalgam.

National School Oral Health Workshop

Indian Dental Association (IDA) organized a National School Oral Health Workshop at Indian Dental Association Head Office, VIP Industries Limited, 3rd Floor, Unit no.3A & B Zone 1, 88C, Old Prabhadevi Rd, Mumbai on 12th February 2023; to initiate a National School Oral Health Policy encompassing the complete oral health of school children and adolescents. IDA with relevant stakeholders proposed to work with the Ministry of Health and Family Welfare, Food Safety and Standards Authority of India, Government of India to implement National School Oral Health Programme; it has also been decided that annually one month will be dedicated for the School Oral Health Programme. These standard evaluations will provide data on the effectiveness, accessibility and quality of the oral health services. Person in-charge of this workshop is Dr. Dharti.

Workshop on Sugar and Tobacco:

Two Risk Factors, Too Many Diseases

FDI World Dental Federation in collaboration with Indian Dental Association (IDA) hosted a first-of-its-kind 'Whole Mouth Health Advocacy and Capacity Building Workshop' for the non-

communicable diseases at the IDA H.O., Mumbai on June 16th to 18th, 2022. The theme of the workshop was, 'Sugar and Tobacco: Two Risk Factors, Too Many Diseases'. FDI Vision 2030 calls for oral health to be integrated with the non-communicable disease (NCD) and universal health coverage (UHC) agendas and take a common risk factor approach to address the NCD burden. Two common risk factors are tobacco, including smokeless tobacco, and sugar. Health professionals including dentists have a role in raising awareness about NCD risk factors among their patients. However, it is also imperative to adopt a set of evidence-based policies to address the root causes of these risk factors, including the social and commercial determinants of health, and unhealthy industry interference in policy making.

The outcome of the workshop was that IDA with support from multiple stakeholder organizations formulated a 'Mumbai Declaration on Sugary Drinks and Unhealthy Food' endorsing the seven actions to inform the public about the negative health impacts of sugary drinks and to advocate for population-wide strategies to reduce sugary drink consumption and restriction on the sale of junk food. The workshop was conducted under the charge of Dr. Dharti.

National Collaborative Workshop

The National Collaborative Workshop: Future of dentistry - Challenges and opportunities that initiated deliberations, first of its kind was organized on 9th June 2023 at Indian Dental Association Head Office, VIP Industries Limited, 3rd Floor, Unit no. 3A & B Zone 1, 88C, Old Prabhadevi Rd, Mumbai; to draft a blueprint of action plan outlining how the oral health community will tackle actual and anticipated transformational changes and trends in the oral healthcare environment and seize opportunities to become productive members to deliver patient-centered care to the deprived sections of society. The person in-charge of the workshop was Dr. Nidhi. The workshop was well received and deans of various dental colleges, stakeholders from DCI, MoHFW and Speciality Dental Associations attended it.

Seeing the positive response, IDA will be organizing the 'National Collaborative Workshop on Oral Health - Advancing Oral Health Through Science, Research, Education, Practice and Advocacy' at the Jio World Convention Center, Mumbai on 13th and 14th January 2024. It will encompass the launch of important guidelines and policies across various disciplines in dentistry to ensure standardization across the field.

Past Projects of IDA

- BRIX-3000 Randomized Control Trial.
- Cancer Out Campaign in collaboration with Rajasthan Royal Cricket team of IPL, Rajasthan Government, and TATA Trust.
- Post Pandemic Health Coaching Project with FDI World Dental Federation, University of Dundee, and Queen Mary University.
- IDA-WHO Oral Health Promotion, Tobacco Abuse Prevention & Oral Pre-cancer/Cancer Prevention, Integration with NCD and Research.
- Integration of Oral Health in existing Primary Health Care System: A Pilot project in Wardha and Nagpur.

IDA AND THE D

The World Dental Show, Mumbai

An activity of growing significance during the year under review was the hosting of the World Dental Show (WDS) – the country's defining trade exhibition in dentistry and dental technology. As a leading dental trade exhibition of innovations, trends and ideas reflecting the changing face of global dentistry, WDS attracted a good number of exhibitors, visitors from dental practices, dental technicians and leading dental research scholars. Holding of such dental exhibitions enable the dental professionals to keep abreast of the global changes in dental technology and the dental trade and industry to contribute to faster development of dentistry in India. Such exhibitions contribute to making dental care quality-oriented and affordable.

World Dental Show 2023 inaugural function at Jio world Convention centre, Mumbai, inaugurated by Dr. Rajiv K. Chugh, president IDA; Dr. Ashok Dhoble, Hon. Sec. Gen. of IDA; Dr.Ravindranath president elect IDA; Dr. Sanjay Joshi Hon. Jt. Secretary IDA;, Dr. Deepak Muchhala Hon. Treasurer IDA; Dr. Jagannathrao G. Hegde was Guest of Honour as a special invitee PMJF LION, District Governor & Former Sheriff of Mumbai; Dr Shishir Singh as Guest of Honour, Terna Dental College; Dr.VivekPakhmode, joint director (Dental) Directorate of Medical Education and Research,Government Dental College, Mumbai was chief guest. Dr VikasDhupar, President Association of Oral & Maxillofacial Surgeons of India (AOMSI); Dr. Girish Rao, Secretary, (AOMSI) were the dignitaries present on the dias comprising a distinguished assembly of dental professionals and leaders from dental industry & trade. The World Dental Show 2023 witnessed a highly enthusiastic attendance by delegates dedicated to upgrade their knowledge and skill-sets. At the show a truly outstanding array of speakers were chosen for the high quality scientific programme to form a concomitant feature of the SHOW. Delegates attended in large numbers to listen to these speakers and expand their knowledge.

Pune Dental Show, Pune

Pune Dental Show (PDS), which concluded on 29th & 30th April 2023. After two days of specialised dental trade fair accompanied byan interesting cutting-edge scientific programme, robust interactive sessions, knowledge sharing and networking.The rationale behind organizing the show was showcasing the rapid advances in dental technology, coupled with the growing demand for the latest dental procedures.

Pune Dental Show 2023 inaugurated by the presence of ShriMuralidharMohol ex-mayor Pune, Dr. A.A. Natu, chairman

HYDERABAD DENTAL SHOW

JAIPUR DENTAL SHOW
INTERNATIONAL SCIENTIFIC SUMMIT
2-3 DECEMBER 2023
Rajasthan International Centre

ENTAL SHOWS

board of governors of IISER, Kolkata and Thiruvananthapuram inaugurated the Udaan hall and lastly chief-guest Smt. RashmiUrdhwareshe, 3rd former President at SAEINDIA, Ex. Director of ARAI, inaugurated the Women Dental Council's programme on 'Women's Oral Health' under 'Abhaya' - an initiative by IDA and Group Pharmaceuticals Ltd. at Udaan Hall.

The Pune Dental Show 2023 witnessed a highly enthusiastic attendance by delegates dedicated to upgrade their knowledge and skill-sets. The scientific programme added a cutting edge to the entire conference with around 59 scientific deliberations which included 47 keynote lectures, 9 hands on courses, 2 workshop, panel discussion and a session addressed by Women Dental Council. The scientific programme focused on the latest innovative technologies and therapeutic procedures. At the show a truly outstanding array of speakers were chosen for the high quality scientific programme to form a concomitant feature of the show. Delegates attended in large numbers to listen to these speakers and expand their knowledge.

It was a spectacular show by global standards. The showcasing of a mini-global dental market with the latest innovation in dental equipment and materials underlined the potential for investment

and growth in the dynamically expanding dental sector in India.

Hyderabad Dental Show, Hyderabad

Hyderabad Dental Show 2023, inaugurated by the esteemed chief guest Smt. ShikhaGoel, IPS, ADGP, Women Safety Wing, Telangana; Dr. Rajiv Chugh - President; IDA; Dr. Ashok Dhoble - Hon. Sec. General, IDA; Dr. Raveendranath M - President Elect,

IDA; Dr.Srikanth Ala - Secretary, Deccan Branch also graced the occassion.The high level of satisfaction of delegates and exhibitors was the impressive efforts to make the show as pleasant and successful as possible by offering them a cosmopolitan, hospitable and perfect. Hyderabad Dental Show is the prominent show ensuring sustainable success for the latest industry innovation and market trends. Most forward-looking innovations, exciting live demonstrations, countless new products, and hands-on- the unique show, the entire dental industry came together to represent the most innovative concepts & technologies for a better today and tomorrow.

The Scientific Programme at Hyderabad Dental Show added a cutting edge to the entire conference with around 28 scientific

sessions which included 22 keynote lectures, 6 workshop sessions on Rotary endodontics, Laser Dentistry, Digital Dentistry and crowns in Pediatric Dentistry. These offered a varied and contemporary selection of continuing education programmes—we have you and your entire dental team covered.One session was by the Women Dental Council. The scientific programme focused on the latest innovative technologies and therapeutic procedures.

At the show a truly outstanding array of speakers were chosen to deliver their latest studies, discuss cases, review solutions to issues, and conduct in-depth discussions on ways to promote oral and dental health. Delegates attended in large numbers to listen to these speakers and expand their knowledge.

Jaipur Dental Show

Indian Dental Association's premier 2-day event 'Jaipur Dental Show 2023' along with FDI-IDA-CDE Programme;an action-packed 2-day eventguaranteeing the exchange of knowledge, networking, education&building of professional relationships was organized at Rajasthan International Centre, in Jaipur from 2ndto 3rdDecember 2023ended successfully. 'Jaipur Dental Show' was organized around the theme **'Stepping Towards the New Horizon in Aesthetic Rehabilitation'.**

Mrs. Usha Sharma, IAS Hon'ble Chief Secretary of the Govt. of Rajasthan was the Chief Guest and Dr. VikasJeph, the President of Rajasthan State Dental Council in Jaipur litthe ceremonial lamp at the inauguration ceremony. ShriUmesh Mishra IPS, DGP Rajasthan was the Guest of Honourat the Trade Exhibition. The event was graced by esteemed presence of personalities like Dr. Pradeep Jain, the Organizing Chairman of JDS, Dr. Bhagwan Das Rai, the co-organizing Chairperson of JDS, Dr. Sunil Raghav, Dr. Harish Bhardwaj, Dr. Nishant Gupta from JDS Scientific and Dr.AnkurKanodia and Dr. Prashant Bhardwaj. Other notable people to grace this occasion were Dr. Rajiv K. Chugh, President of IDA, Dr. Ashok Dhoble, Hon. Sec. General of IDA, Dr. M. Raveendranath, President Elect of IDA, Dr. V. Bhaskar, Vice President of IDA, Dr. Raju Biswas, Chairman of CDE, and Dr. T. Gokul Raj, Honorary Secretary of CDE. JDS was Sponsored by Toothsi, Haleon, Dentium and Nirwan University Jaipur.

This event reinforced Jaipur's reputationas 'the pink city'- a major sightseeing destination in Rajasthan India; significantly impacting the city's economy by attracting thousands of professional visitors as this show offered something for everyone.

A Woman's Oral Health Initiative

Celebrating One Year of Empowering Women Through Oral Health Awareness

Abhaya – A Woman's Oral Health Initiative was launched on March 29, 2022, with a commitment to improving women's oral health and overall well-being. The project completed it's first year in March 2023, focusing on creating awareness to women across India. Throughout the year, Abhaya conducted numerous public awareness and health check-up camps nationwide. Our dedicated team of dental professionals reached out to women, educating them on the significance of oral health.

Abhaya's participation in the Pune Dental Show garnered significant attention from dentists, amplifying awareness of our initiative. This led to the establishment of more Abhaya clinics, making vital awareness and dental care accessible to women. At the International Digital Dentistry Congress, we had the privilege of connecting with over 100 passionate dentists from across the nation who shared our vision. This not only expanded our network but also reinforced our commitment to the cause. We successfully transformed multiple dental clinics into Abhaya clinics, reinforcing our commitment to reaching more women in need of oral health awareness and care. Abhaya's presence at the Hyderabad Dental Show significantly raised awareness about oral health issues among students and dental interns in the region. Education and engagement with the future generation of healthcare professionals remained a cornerstone of our initiative. The highlight of our year was the launch of Breast Cancer Awareness Camps under Abhaya. This initiative saw our total centre count increase to 250 Abhaya Centres nationwide. More than 135 Abhaya Centres conducted Breast Cancer Awareness Camps across the country, impacting countless women. These camps focused on making women aware of Breast Cancer symptoms, dispelling myths and presenting facts, discussing prevention, treatment, and educating them on Breast Self-Examination. The year 2023 concluded with the celebration of National Oral Cancer Day on December 6th. This event highlighted the importance of early detection and prevention of oral cancer. National Dentist Day on December 24th was a special occasion, featuring celebrations with the Abhaya Warriors with special gifts to commemorate the day and showcase our Abhaya Wall of Fame.

As we reflect on the achievements of the past year, we recognize the significant progress we made in empowering women through oral health awareness and care. Abhaya remains committed to its mission, and we look forward to expanding our reach, forming more Abhaya Centres, and impacting the lives of women throughout the country.

Educational Programmes

MUHS affiliated programmes and much more to increase knowledge and inspiration to provide optimal patient care. We have aimed to provide the cutting edge of dentistry by staying up-to-date on the latest developments in our fields.

All our educational programmes have instilled dental professional with the skill set to apply the latest clinical recommendations and practice scientifically informed treatment. Our curriculum instills students with the curious mind-set needed to provide evidence-based care.

During this year 10 workshops were organized, these were best-in-class education with focus on specific areas of clinical expertise to impart advanced approaches, techniques and tools to take skills of dental professionals to the next level; we organized 20 plus webinar which brought world- class content by key experts and covering the latest on technology, innovations and the best practices in the field of dentistry; 45 Comprehensive Clinical Residency Programmes (CCRP) were organized at 45 campuses with 15 participants in each batch.

Tie-up to provide MUHS Affiliate Clinical Fellowship Programme
In 2023, we added innovation, research and exciting exchange of knowledge and sharing of enhanced skills by educating dental professionals on the various specialities of dental science based on scientific research and developments by offering MUHS Affiliate Clinical Fellowship Programme which translates scientific knowledge into improved healthcare with knowledge and innovative ideas to provide the ultimate in clinical use. For this fructification, IDA has tied-up with the esteemed Maharashtra University of Health Sciences (MUHS) University to promote professional advancement with Clinical Fellowship Programmes. IDA offers MUHS Affiliate Fellowship Programme in 5 branches of specialization ie Micro-Dentistry, Endodontics, Implantology, Aesthetic and Laser Dentistry.

The Fellowship Course of Micro Dentistry offers a rare chance to learn this latest and sophisticated way of performing dentistry under expert guidance and under the aegis of highly reputed MUHS at esteemed institution of IDA.

The Fellowship Course of Endodontics offers the edge to routinely perform basic and advance endodontic procedure in clinical setup by having capacity for proper decision making and understanding of newer concepts in Endodontic practice.

The Fellowship Course of Aesthetic Dentistry will give participants access to the new innovations and techniques in aesthetic dentistry via the medium of lectures to discussions to hands on participation for comprehensive treatment planning. The aim is

exposure of participants to the newest scientific concepts and development in aesthetic treatment modalities.

The IDA-MUHS Fellowship Course in Oral Implantology is an innovative programme offering dental practitioners to learn the skill of complete implant treatment. These skills include evaluation, diagnosis, treatment planning, treatment sequencing, surgical placement and restoration of the implant. The objective of this program is to develop the necessary skills for the dental practitioner in utilization of dental implants to restore the functional and aesthetic requirements of their patients. This fellowship develops critical understanding and the ability to evaluate the clinical theory, practice and associated research applied to the practice of dental implantology as a mode of referred treatment.

The IDA-MUHS Fellowship course in laser dentistry is an innovative program offering dental practitioners entire knowledge right from the laser basics, machinery, laser physics to laser tissue interactions and safety. It will help them to expertise in the field of Soft and Hard Tissue Dental Lasers so that they can diagnose, plan and perform all the possible forms of indication using all the wavelength (8-10 different wavelengths) available for dental use in the Indian market. They will be well versed with the protocols, do's and don'ts for all the indicative procedures in the dentistry so that they are confident enough to choose and practice laser of one’s own choice.

Future plans for 2024

IDA believes that 2024 holds great promise for us as we get ready to identify and promote innovative, future-ready oral health educative programmes which can advance dental education and elevate the dental profession-to tap knowledge, skill-sets, ability and perspective to develop professionals who can lead dentistry to greater heights amidst change.

IDA believes in taking concrete actions centered on advancing dental education by now offering fellowships in sports, pediatric dentistry and digital smile dentistry to equip dental professionals with required to navigate the ever-changing dentistry delivery model with the needed acumen.

IDA and Oral Health Development Initiatives

Programmes intended to improve Oral Health and Hygiene environment in the Country

As custodian concerned about the oral health conditions in the country, IDA's efforts are directed towards improving the oral health conditions in the country. Several projects and programmes initiated bear testimony to this objective. Members would agree that programmes such as Oral Cancer Foundation, Tobacco Cessation and Control, Child Dental Centre, National Oral Health Programme, Healthy Mouth Healthy Body, Cleft Lip and Palate etc. , initiated by your Association, are intended to improve the oral health environment in the country. The latest Swachh Mukh Abhiyan presently being implemented in certain pockets in Maharashtra, spreading the message of the importance of a clean mouth and keeping it disease-free, would soon be extended to the other parts of the country. They have no doubt contributed significantly to better oral healthcare management and thus to improving national health index of the country. At the same time, rewarding those who have done outstanding work in the field of oral healthcare and motivating them to strive for greater honours was another initiative taken by your Association through institution of awards for excellence in oral care services rendered. It emphasises that the dental healthcare service providers have a significant role to play in improving the oral health scenario prevailing in the country.

Oral Cancer Foundation

Members would not disagree with me that oral cancer constitutes the greatest roadblock to achieving the goal of optimal oral health for all. As custodian of oral health in the country, IDA had been greatly concerned about reducing the incidence of the dreaded disease and its major contributory cause, i. e. , tobacco use, to improve the oral health environment in the country. The establishment of the Oral Cancer Foundation (OCF) for early detection and treatment was aimed at creating an India free from oral cancer. OCF facilitates early detection and treatment to aid prevention of oral cancer. Campaigns are carried out for educating the masses about the risk factors. The setting of an Oral Cancer Registry to exclusively register the number of oral cancer cases in the country was a sequel to this initiative as there is no registry to record oral cancer cases. These together marked the beginning of a campaign for safeguarding oral health through early detection and treatment. Training programmes for developing a cadre of dental professionals dedicated to delivering the highest level of care has also been receiving encouraging response. Early detection and treatment are facilitated by setting up of the Spot and Prevent Oral Cancer Trauma (SPOT) Centres. Members who got trained in detection of oral cancer lesions have been setting up SPOT Centres as a part of their dental clinics offering oral care services to the community. IDA's network of specialized SPOT Centres for early detection and treatment is crucial not only for oral lesion screening opportunities but for delivery of oral cancer preventive advice as well. IDA is confident that its endeavour would certainly pave the way for better oral health and quality of life in the country. Educating the masses and creating awareness about the killer disease brooks no delay.

SPOT Centres

Members are well aware that the SPOT Centre is the mechanism that helps early detection of oral malignancy and potentially malignant lesions in our efforts at reducing the incidence of oral cancer. The SPOT Centres also facilitate research by providing patient data on oral cancer. Training programmes for developing a cadre of dental professionals dedicated to delivering the highest level of care has had encouraging response. Members would be happy to know that currently 147 such Centres are in operation in 20 states and 2 UTs states across the country as on 28 November 2018. On account of several factors the pace of progress is slow but has been gathering momentum, of late.

A minimally expensive, formal one day training is imparted to all those dental/healthcare professionals desirous of starting a SPOT Centre to create a class of professionals providing effective oral cancer service and education. The training equips them with the right technique of carrying out detection of cancerous lesions in the oral cavity which subsequently is subjected to biopsy to facilitate any therapeutic procedure that may be warranted. IDA would welcome dental professionals to be a part of this noble initiative by registering themselves for the initial training in early detection and treatment and to get their clinics certified as SPOT Centres. IDA is keen on creation of a band of trained dental healthcare providers to continue its relentless battle against oral cancer and tobacco cessation as a service to the nation.

Tobacco Control and Cessation Webinars and Training Sessions

A professionally led "call to action" program to make India Tobacco free. TII is essential to reduce the mortality and morbidity related to tobacco usage. A survey suggested that one in three adults in India smokes or chews tobacco, very few quit and second-hand smoke remains a big problem, exposing gaps in the country's tobacco control efforts. The Indian Dental Association acknowledges that the country is facing a smoking epidemic that is likely to cause up to 1 million deaths every year. We aim to improve the health status through communication, prevention and intervention.

- TCC conducts timely webinars and training sessions to create a Tobacco-free India through intervention and prevention. Here is a list of the sessions IDA has conducted for the year of 2022.

National® Oral Health Programme
Optimal oral health for all by 2030

IDA National Oral Health Programme

Bringing aboutreal change in society by promoting regular Dental Habits to sustain a radiant smile - Building a new generation of dentally healthy people

Members are aware that IDA has been greatly concerned about the oral health condition of the nation and the glaring disparities in oral health among the various segments of the population and the obvious constraints in accessing oral care by the people. Itis a programme that combines preventive measures with accent on education to create oral health awareness among the various segments of the population. The main focus is on primary prevention, early detection and management of diseases of the dental, oral, and craniofacial tissues through a comprehensive approach involving awareness creation via education, prevention and treatment. The National Oral Health Programme (NOHP) was launchedin2010 and was aimed to a meliorate the poor oral health conditions prevailing in the country. The whole programme was drafted keeping in mind that IDA is the custodian of oral health in the country and as a part of our social responsibility.

NOHP embraces a vast canopy of oral healthcare components intended to initiate a move towards the attainment of optimal oral health aimed at improving the national health index. Ever since its launch, it has been contributing to improving the oral health scenario in the country.

Under the programme unique identification cards had been designed for different segments of the population to facilitate easier access to oral health care services. Oral Health Card) offering many oral health benefits under the National Oral Health Programme umbrella. The National Oral Health Card ensures convenient access to oralhealthcare services to the corporate staff in their own familiar working environments.

Dental check-ups under NOHP

During the year under review numerous dental check-up camps were organised and we conducted awareness lectures to create oral health awareness keeping in mind the special needs of the children, the elderly, the disabled, women, employees of the corporate sector and for community. Here, we express our gratitude for the institutions or authorities associated who let us organise the camps on their camps and helped us with their cooperation and support in enabling IDA to offer oral care services as a part of its social responsibility. The dental check-up camps were conducted as under:

a) School Children

Activities for school children comprised free dental check- ups, distribution of educational leaflets and posters on a large-scale

as part of IDA's commitment to community. We organised free dental check- ups at Adarsh English school, Prabhadevi with Rotary Club of Mumbai Elite at Dnyanvardhini Vidyala, Charkop Rishi Valmiki School, Goregaon, in Mumbai wheremorethan 3,500studentsweregivenoralexaminationand drs team informed for the necessary treatment.. As a part of IDA's health initiative, a lecture on the importanceofmaintenance of oral health was organized for school children and we created awareness about sensitivity of teeth, bad breath, and nutrition for healthy teeth. This was held under the School Oral Health Programme where our member dentists spent their time and efforts on innumerable occasions.

B) IDA jointly with Kotak Mahindra conducted Oral Cancer Screening at for laborers working at APMC Market, Navi Mumbai for 3500 Screenings

KMBL & IDA Oral Cancer Screening Camp Project was implemented via KMBL CSR Life Saving Initiative Healthcare in

association with the Indian Dental Association. This camp was conducted for 5 days from 27th February 2023 till 3rd March 2023 in each of the five markets namely onion potato market, grain market, vegetable market, fruit market and masala market. Vashi APMC market, Navi Mumbai. Over the 5 days camp, IDA's dentists screened and consulted over 2675 beneficiaries age group between 18-65 yrs. raising awareness on oral cancer and educating local workers on oral hygiene. The additional camp in APMC market we have conducted during 25th April to 28th April 2023 949 covered .Covered 9-10 High Risk Oral Cancer patients detection and Biopsy in Medical Mobile Unit.

Following the session, the team from College Terna Dental College, MGM Dental College, D.Y. Patil, Bharti Vidyapeeth, Yerla Dental College, Navi Mumbai with Dr. Amruta Anarthe, Project Head of IDA (H.O), MS. Nrupali Chitnis, Project Manager, Dr. Aishwarya Shelke, Project Coordinator, Mr. Shashi Jadhav, Project Coordinator from IDA H.O. who had contributed to the success of this event.

c) IDA jointly with Rotary Club of Bombay, Chembur West conducted Oral Screening camp for Community

On the 27th August, 2023, ROTARY CLUB OF BOMBAY, CHEMBUR WEST, in collaboration with INDIAN DENTAL ASSOCIATION (IDA) arranged Dental check-up activity for A COMMUNITY at Chandivali.

A huge gathering of people were present at the camp and around 70 people were examined. Dr. Subeen Wasim along with 3 interns was present at the camp. The camp lasted for a good 6 hours.

The IDA team of dentists examined the patients, informed them about the condition of their oral health and also suggested ways to treat the dental issues present in their mouths and also measures to undertake to prevent any future dental problems. Methods to maintain oral hygiene were also discussed with the patients on one to one basis. A small section (approximately 20%) of the people screened were tobacco users of various kinds. Therefore, ill effects of tobacco were stressed upon and patients were counselled for the same.

d) IDA HO conducted oral screening for deprived women's adopted by Women and Child Development, Mumbai

To mark International Womens Day 8th March Women and Child Development Officer, Mumbai Office Mumbai Suburban in association with Indian Dental Association and Government Women Beggar Reception CenterChembur - 37 women and Government Kasturba at Women Hostel Chembur-26 women total - 63 needy and Poorwomen were examined by doctors with advanced equipment and trained specialists. Group Pharma supported this activity for free toothpaste to all the entrants. Dr. Monali Rathod and Dr. Rahaf Aadil carried out a dental examination in coordination with Mr. Shashi from the IDA team District Women and Child Development Officer Mr. B H. Nagargoje, District Probation Officer Smt. Sneha Joshi, Defense Officer (Senior) Shri. Giridhar Chaure, all the staff of the District Child Protection Unit, and the Superintendent of the Government Women Beggar Reception Center Smt. Vowala and the Superintendent of the Government Kasturba Women's Hostel Smt. Wakpazar as well as Dr. Satish Sonwane was present. The programme was welcomed by greeting all the women of Women's Day. With Dr. Dhoble sir's approval and very keen.

to have women's preventive oral health under his guidance Mrs. Nrupali from IDA took the initiative and took special efforts to successfully carry out this programme.

All in all, even though a small group of people were catered, we, at IDA believe that no effort put in is ever wasted. The camp was a huge success with the co-operation of IDA staff members and the members of Rotary and Women and Child Development .

E) Community Dental CheckUp

IDA jointly with Jain Alpsankhyank Seva Sansthan conducted Free Oral Screening camp for @500 Mumbai Dabbewala on 29th January, 2023 at Dabbewala Bhavan.

The complete oral check-up, screening, and consultation for the Dabbawalas will take place during the camp. During the camp, the dabbawalas will be screened to evaluate the diagnosis of the mouth and gum diseases, determine the treatment plan with the help of expert dentists, to record a count of tobacco chewers among other activities. There will be tobacco cessation counselling and education session held for them. Patients with pre-cancerous and cancerous lesions will be advised to do a biopsy for further evaluation. If any of them require any further treatment, it will be provided free-of-cost by IDA at their facility; Dr. APJ Abdul Kalam Center in Prabhadevi. also held on patient education and awareness about the importance of oral hygiene maintenance. Dr. Ashok Dhoble, HSG, IDA said that it is an honour for them to collaborate with Dabbawalas in Mumbai for their oral health along with Jain Alpasankhyank Seva Sansthan. “With their extensive network coupled with undeterred work ethics, they are integral to many Mumbaikars who are dependent on them for their office lunch. They have been working tirelessly to ensure healthy home-cooked meals are delivered. As advocates of oral health, IDA is pleased to do something to help protect the oral health of these Dabbawalas,” he said. Dr. Dhoble further said, “It also provides us an opportunity to acknowledge their efforts because this will enable us to reach many Dabbawalas and raise oral health awareness, thereby, creating a wider impact. At the camp, we will also provide them with a free dental card which they can use to avail their dental treatment at IDA’s centre in Prabhadevi.”

IDA and Corporate Partnerships

The keystone of successful partnerships is the sense of involvementand cooperation. Partnerships prosper when the partners concerned have a sense of involvement and commitment. These virtues are pre-requisites for the sustenance of corporate partnerships. IDA was indeed happy on both these counts in its long standing relationship with corporate partners. In the implementation of programmes aimed at increasing oral health awareness, IDA has been receiving considerable support and cooperation from several agencies. Over the years we have built a strong and enduring relationship with these agencies, including non-governmental agencies, for better outreach and larger benefit to the targeted population. These partnerships havebeenofimmensevalueinachievingthegoalsofoptimaloral healthcare and hygiene. This has helped in better outreach and larger benefit to the targeted population in the implementation of programmes aimed at improving oral health awareness in the country.

F) Check-Up Camp for Corporate Staff

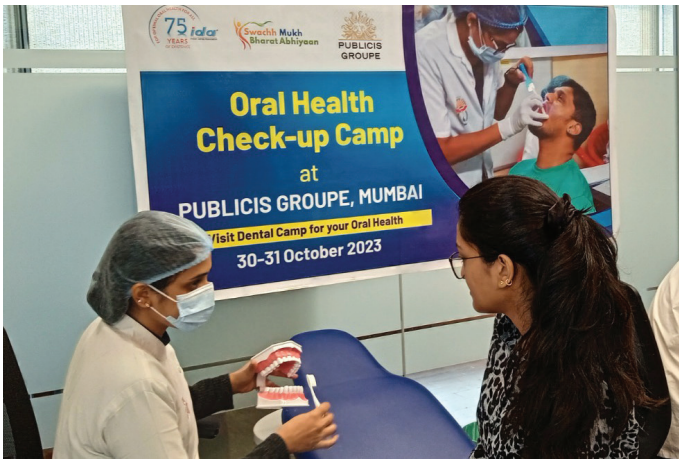
1) IDA in association with Ericson TPA conducted camp for their @500 staff at Turbhe, Rabale Dentist team examined the staff informed them how to take care of oral health and importance of twice a day brushing also visit the dentist atleast once in year.

2) IDA in association with STYLAM initiated Oral Camp for their staff at Bangaluru.

A dental screening camp was conducted at Stylam industries Ltd Branch Office,Bengaluru on 09-09-2023 by dentist team from K.L.E Society’s Institute of Dental Sciences, Bengaluru lead by

Dr. Parimala R Post Graduate Student consisted of Dr. Kavitha M., Dr. B. A. Bhoomika Poojashree, Dr. Raja Yeshwanth Kumar A. K. and Dr. Pratheek A S, 4 interns under the guidance from Dr. B. K. Srivastava Dean and President IDA Bengaluru local Branch. A total of 15 patients were screened for dental diseases. Among the 15 patients, 5 had dental caries and 6 had gingivitis.

3) The Indian Dental Association (IDA) organized a two-day dental camp at Lower Parel, on 30th and 31st October with the help of four dentists. This event aimed to promote oral health awareness among the employees of PUBLICIS GROUPE, MUMBAI 101 people benefited from this 2 day camp. The beneficiaries had the opportunity to discuss their dental concerns with our dentists, who provided advice and recommendations for further treatment, if necessary. People with tobacco habits were counselled and made aware of the hazards of using tobacco. People were made aware of the conditions of their teeth and gums and what treatment is required to restore them to optimum health was also discussed individually. In conclusion, it can be stated that this camp successfully catered to a small fraction of our society and helped them understand their own mouths better. The IDA expresses thanks to Publicis Groupe for their collaboration and support in making this dental camp a success.We look forward to future collaborations to continue promoting oral health and well-being in the community.



Members would be happy to know that during the current year, under this pioneering activity of NOHP, oral health check up of employees of ten establishments was carried out. In all 2000 patients underwent oral health check up hailing from corporate establishments. Employees who had oral problems availed of the services provided and were advised of the importance of regular dental visits for oral care. These oral health examinations were preceded by lectures by dental professionals to familiarize the employees about the importance of maintaining oral health and hygiene.

Activity Calendar

You are aware that your association last year had initiated a activity calendar for the years 2022 and 2023 which is available on the IDA website. Communications and soft copies of activity promotion materials for respective activities were shared with branches to facilitate them to carry out the activities in an organized fashion.

IDA Community Programmes

"The best way to find you is to lose yourself in the service of others"

World No Tobacco Day

'World No Tobacco Day' "Grow Food NotTobacco" #idasaystobaccoout. Indian Dental Association (IDA) adopted the official theme of World Health Organization '"Grow Food Not Tobacco"' for World No Tobacco Day 2023. through campaign we plan to advocate against tobacco use through,

1. Awareness campaigns
2. Identifying people affected by tobacco use.
3. Developing campaigns to help them.
4. Capacity-building of dental health professionals.

Grow food, not tobacco' draws attention that today globally we are facing a devastating food crisis as a result of climate change, impact of the COVID-19 pandemic and ripple effect of the Ukraine war which has caused food, fuel and fertilizer prices to soar. Forty-five million people are close to starvation– facing famine-like conditions – with twenty-six million children under 5 suffering from wasting, life-threatening forms of malnutrition. Unless action is taken now, more lives will be lost, which leads to WHO announcing –'we need food, not tobacco "the focus of World No Tobacco Day 2023. This theme emphasizes the importance of healthy food choices and the need to prioritize food over tobacco.

Indian Dental Association has been advocating that tobacco use is a leading cause of preventable death. IDA strongly advises against the use of tobacco products because of the unacceptable risks posed to general and oral health. Smoking is linked with several health problems, including lung cancer, respiratory illnesses, stroke and heart disease.

S. No	Name of the Dental Colleges	Rank
1.	Nanded Rural Dental College, Maharashtra	1 st Rank
2.	MMDS & R, Mullana, Ambala, Haryana	II nd Rank
3.	GDCH, Jamnagar, Gujarat	III rd Rank
4.	Subharti Dental College & Hospital, Uttar Pradesh	Special Recognition
5.	GDCH, Ahmedabad, Gujarat	Special Recognition
	States and UTs	
1.	Andhra Pradesh	1 st Rank
2.	Tamil Nadu	II nd Rank
3.	Karnataka	III rd Rank
4.	Maharashtra	Special Recognition
5.	Puducherry	Special Recognition

Currently, tobacco is grown in over 125 countries as a cash crop, over an estimated area of 4 million hectares (ha). The harmful effects of the cultivation on the environment are apparent. WHO encourages Governments to end subsidies for tobacco growing and use crop substitution programmes which improve food security and nutrition.

To raise awareness among people about the ill-effects of consuming tobacco and smoking with the aim to reduce tobacco consumption as it can lead to deadly diseases like cancer and early death. People, non-governmental organizations and governments unite on 31 May every year to draw attention of the people about health problems which tobacco use can cause. Every year a theme is selected to give greater focus to the campaign. Members are aware that, over the years, IDA, as a part of its social responsibility, has been waging a war against the use of tobacco and its products that has eventually led to the Union government banning smoking in all public places. IDA Branches / Members / Dental colleges conducted various dental Camps and lectures on Oral Cancer and Tobacco De-Addiction in collaboration with TATA Hospital and other Institutions / Hospitals featured the WNTD celebrations. Several awareness lectures were organized at the venues to highlight the various negative effects of tobacco usage.

These activities are call-to-action programmes of IDA which strives to establish a broad alliance of key influencers and policymakers from research, education, clinical practice, public health, government and industry to effect fundamental changes in health systems and individual behaviors and to achieve the goal of improving the oral health scenario by 2022-23.

A series of lectures, exhibition of posters, distribution of educative leaflets at specially designed stalls in government offices and prominent places, conducting massive rallies, holding press conferences and panel discussions, putting up huge hoardings at busy traffic signal squares for public awareness, etc., marked the event organized by branches over the week. A large number of doctors, teachers and students participated.

We acknowledge and appreciate the cooperation and support of the participant dental colleges in this national cause.

World Oral Health Day

World Oral Health Day is observed every year on March 20 to provide an opportunity to raise awareness of oral health and to take measures to lower the incidence of oral diseases. It is an awareness promotion event to engage people in Preventive Oral Care Routines. As usual, the theme this year was 'BE PROUD OF YOUR MOUTH! It's a three-year campaign for World Oral Health Day 2020-2022 (WOHD) under the theme 'BE PROUD OF YOUR MOUTH" .The WOHD 2023 campaign aimed at educating people that "keeping a healthy mouth is crucial to keeping it functioning correctly and for maintaining overall health and quality of life". The Day celebrates the benefits of a healthy mouth and to promote worldwide awareness of the issues around oral health and the importance of oral hygiene among everyone old and young.

World Oral Health Day offers the dental and oral health community a platform for action. Globally, 90% of the population is at risk from some form of disorder, ranging from caries, periodontal diseases and tooth decay to oral cancer. Working together can prevent oral diseases of caries, gum diseases and tooth loss and help the communities maintain a solid dentition for life. As usual, IDA joined the FDI and the national dental associations around the world in honouring this day through a series of activities devoted to raising oral health awareness in the country. Several branches observed the Day by holding public dental check-up camps, educating people and generating awareness about oral health and hygiene.

World Oral Health Day (WOHD) is celebrated globally every year on 20 March. It is organized by FDI World Dental Federation and is the largest global awareness campaign on oral health. The official theme of the 2022 World Oral Health Day (WOHD) campaign is

Be Proud of Your Mouth. This year, we want to inspire change by focusing on the importance of oral health for overall health, because good oral health can help you live a longer, healthier life.

IDA over the years has been relentlessly carrying out a campaign to promote oral health awareness to attain its goal of optimal oral health for all in the country.We are glad to share with you Directorate General of Health Services, Ministry of Health & Family Welfare National Oral Health Programme(NOHP) associated with Indian Dental Association to celebrated/observed WOHD 2023 with all IDA Branches of the country conducted oral health promotion and prevention activities for all age groups preferably for a month around 20th March 2023.

World Oral Health Day (WOHD) 2023 is just one week away! For the final year of the Be Proud of Your Mouth Campaign, let's come together on a global scale and kick off a new trend: get involved with the #MouthProud challenge.

Mouths play a big part in everyday life: enjoying a meal, talking to a neighbor, laughing with family and friends, singing for fun,kissing loved ones, feeling your best.

This year,FDI invites to post a video or photo of yourself using our Instagram and Facebook filters or online polaroid tool, to showthat your mouth is important to you. Tag your friends to get them involved! Use this post to kick things off, or write your own..."This #WorldOralHealthDay, take part in the #MouthProud Challenge! Capture yourself in a video or photo and share what your mouth means to you. Together, let's spread the message and encourage people to look after their oral health to enjoy a lifetime of smiles. I nominate [tag four friends] #WOHD23 #MouthProud".

At the outset, IDA would like to thank all the esteemed members for their valuable contribution in evaluating the WNTD reports. The evaluation of the reports submitted by the Dental Colleges and State NOHP Cells The following Dental College (s) & State NOHP Cells have been selected for the best 3 positions along with two Special Recognition Awards.

IDA celebrated International Yoga Day on the theme "Improve Your Health One Asana at a Time"

"Find your inner peace and stretch your body on this International Yoga Day. Embrace the tranquility and let yoga guide you to a healthier and happier life. There are simple yoga asanas that can help in improving your health, and body posture and hence we encourage you all to make it a daily practice and take a yoga break." "Find your inner peace and stretch your body on this International Yoga Day. Embrace the tranquility and let yoga guide you to a healthier and happier life. Thereare simple yoga asanas that can help in improving your health, and body posture and hence we encourage you all to make it a daily practice and take a yoga break.

Dental Practice Accreditation

Healthcare service providers need to establish, maintain and apply standards that ensure excellent service and a high quality of care. Continuous improvement in dental and dental-related education should reflect the evolving practice of dentistry. Accreditation is the recognition of the standard of functioning of a dental clinic on the basis of independent assessment by an organization. IDA intends to usher in a new era in dental practice at par with international standards. Dental Practice Accreditation is another important initiative of IDA. The broad objective is to both standardise and improve the practice of dentistry.

Dental practice accreditation provides benchmarks for excellence and to standardize and improve the practice of dentistry to render high quality of care. It's IDA's endeavour to represent and better serve its fellow dentists by certifying their clinics accredited if their clinics fulfil the norms and quality standards of oral healthcare. With dental practice accreditation IDA hopes to provide a standardised dental healthcare system ensuring delivery of superior, current and internationally accepted treatment modalities while at the same time safeguarding the rights of both patients and dentists.

Members' Profile

Members would be happy to know that we have instituted an award for achievements in dental excellence. It is an award conferred on a member in recognition of his services to the community, in particular, and the profession, in general. We have developed a web platform for members to meet and know each other and recognize the potential of others, their achievements and personal status. Categorised as 'Profile of the Month' the choice of the winner is made purely on an objective assessment of the comprehensive information submitted via the curriculum vitae of members uploaded every month during a specific period. Selection of the CV for online voting by members is based on academic excellence and the nature of services rendered. The

member who gets the maximum number of votes is declared winner and given the 'Profile of the Month' award. Winners of the monthly award qualify for the 'Profile of the year' award. The winner is selected from among those members who qualify and who secures the maximum number of votes. I am happy to say that the response has been quite encouraging.

Patient Education Brochures

Members are aware that IDA has been pioneering a strategy of prevention and promoting awareness about oral diseases and advocating measures to prevent them to maintain dental health and hygiene. Improvement in the quality of dental care delivered has also been engaging our attention. Driven by the desire to attain its goal of optimal oral health in the country, IDA has been bringing out various oral healthcare brochures aimed at educating the patient to eventually bring about behavioural changes among people to aid them pursue better oral health and hygiene. These oral health brochures highlight, in simple language, the various oral health diseases, their causes, symptoms, the risk factors, the need for care, the various treatment procedures, preventive mechanisms and oral hygiene principles to be followed. They contain information presented in a lucid manner which helps improve patient comprehension, enable them make informed decisions about their own dental healthcare and facilitate oral health promotion by improving communication between dental healthcare service providers and the patients. They provide the complete solution for patient education at the point of care. Minimally priced, the brochures can be utilised by the patients, dental clinics, hospitals, community health centres, polyclinics, and health insurance management. These oral health brochures can be effectively utilized not only by the patients, but by students, academicians and even those dentally discerned.

I am very happy to inform you that the response to these brochures has been extremely overwhelming and, in the wake of growing interest from members, effective measures are being taken to comply with increasing demands.

Women's Dental Council

Gender equality and Empowerment of women hold the key to long lasting social change in communities

In the year 2023, the Women Dental Council (WDC) under the leadership of Dr. Afshan Laheji, President Mumbai Branch, and Chairperson of WDC Maharashtra State, actively engaged in various initiatives aimed at uplifting underprivileged women in different regions.

Community Outreach

A meeting was held with women presidents of various NGOs dedicated to the empowerment of underprivileged women. Collaborative efforts were made to extend dental diagnostic and treatment camps to villages and schools, focusing on girls' students. Specialized dental examinations and treatments were provided to visually challenged girls and members of the Brahmakumaris community. The IDA Head Office, with the support of Dr. Ashok Dhoble, facilitated these initiatives.

International Women's Day Celebrations

WDC Maharashtra State, in collaboration with Mumbai Branch, celebrated International Women's Day by honoring distinguished women from the dental fraternity. A unique addition to the celebration was a fashion show organized by WDC of MWSB, adding an element of joy to the occasion. During the event, girl students received informative sessions on oral hygiene, emphasizing the importance of oral health.

Elderly Care Initiatives

As part of our commitment to community welfare, senior ladies at Anthony Old Aged Home were provided with dental care during New Year celebrations and Senior Citizens Day.

Support to Female Police Personnel

A dedicated effort was made to contribute to the well-being of female police personnel. Dental examinations were conducted, and personalized advice on dental treatment and care was provided. In conclusion, the Women Dental Council actively pursued its mission to make a positive impact on the lives of women, emphasizing oral health and overall well-being. We look forward to continuing our efforts in the coming year to contribute to the welfare of the community.

UDAAN

IDA Student Activity

The desire to know is far more important than achievement

Building stronger ties with UDAAN at dental shows

Indian Dental Association's (IDA) youth centric dental conference 'UDAAN' celebrates the much needed opportunity for dental students to network, showcase their individual and unique talents and build lifelong friendships regardless of nationality, ethnicity or race at Pune Dental Show, Hyderabad Dental Show and World Dental Show. These activities groom them to become better leaders and professionals.

UDAAN creates a platform for dental students to share their academic knowledge, cultural appreciation and interpersonal skill thus enhancing their interactions with each other via scientific and cultural programme. Thus the UDAAN fest bridges two main aspects - 'Scientific and Cultural' in the presence of a prestigious gathering of dental professionals, academicians, experts and dental students from different dental institutions focusing on the latest advancements in the field of dentistry. 'Scientific' categories consisted of paper and poster presentations, table/ work model, quiz competition and debates for exchange of knowledge, innovation, and collaboration among students. This offers an opportunity to update knowledge and practice with precision and saving of time and energy. There was organization of 'Cultural' events consisting of singing, dance, fashion show and mad ads. In our competitive age, a dental student is expected to be equipped not only with knowledge and skills but also with communicative abilities and an empathetic attitude for development of a prolific personality. Students who actively participated and emerged victorious in these programmes were honored with certificates, medals, and trophies bestowed by the Indian Dental Association (IDA). The Udaan event, part of the Pune Dental Show on 29th-30th April 2023, featured participation from all dental colleges of Maharashtra in Pune.

At the Hyderabad Dental Show on 15th- 16th June 2023, the Udaan event saw participation from all dental colleges of Telangana and various other states. During the World Dental Show (WDS) on 18th-19th November 2023, the Udaan event witnessed representatives from all dental colleges from Maharashtra.

Dignitaries present on the occasion were Dr. Rajiv K Chugh, IDA President, Dr. M. Raveendranath, President elect-IDA HO, Dr. Ashok Dhoble, Hon. Secretary General -IDA HO

In addition, Udaan also offered exposure to different traditions and customs with the organization of the cultural events throughout the course of the show, and this gave dental students an opportunity to network and build lifelong friendships with future dental professionals across India regardless of nationality, ethnicity or race.

Indian Dental Association

IDA Annual Conference

Recognizing excellence through 'Performance Awards' IDA individuals and branches were honored for their outstanding performance 'Performance Awards' were distributed at the Indian Dental Association's (IDA) headquarters on 19th February 2023, in recognition of the highest standards of excellence honoring IDA individuals and branches for their outstanding performance. IDA honors stalwart branches and individual members to further promote the excellence of dentistry in India.

These prestigious 'Performance Awards' had not been awarded for '2020-2021' because the coronavirus pandemic had disrupted the norm. As these awards are instrumental for motivating branches and individuals to strive to greater heights and contribute more actively towards promoting excellence it was decided to give awards for '2020-2021' and '2021-2022' simultaneously; making the occasion a well-respected ceremony on February 19th. The initiative for 'rewarding the deserving' branches and meritorious professionals involved in doing excellent work by appreciation and thus rewarding them by awards boosts them to continue the good work. With each day and year passes, one has the zeal to enhance skills and stand different. This is a platform is for rewarding extra ordinary both individuals and branches who are working for uplifting the world of dentistry.

IDA proudly conferred awards for the year 2021-2022 as following: 'Dr. Jangoo Kapadia Trophy' for All Round Activity - State Branch of Kerala; West Bengal; Tamil Nadu and Maharashtra. In the previous year the same branches State Branch of Kerala, West Bengal and Maharashtra were thus awarded.

IDA Appreciation Award 'Best State Branch President' went to Dr. Shibu Rajagoapal of Kerala State Branch; Dr. Tushar Vora - Maharashtra State Branch; Dr. K.K.Uma Shankar - Tamilnadu State Branch and Dr. Parimal Mondal –of West Bengal State Branch. While in the previous year this award went to Dr. Joseph CC - Kerala State Branch and Dr. Nitin Barve - Maharashtra State Branch.

Dr. B.R.Chopra Award for the 'Best State Branch Secretary' went to Dr. Deebu J Mathew of Kerala State Branch; Dr. Raju Biswas of West Bengal State Branch; Dr. Vikas Patil - Maharashtra State Branch and Dr. Senthamarai Kannan - Tamilnadu State Branch in both the years 2020-2021\ 2021-22.

Dr. Bellie's Award for the 'Best State Branch Journal' was awarded to Kerala State Branch - Dr Anjana. G; West Bengal State Branch for both the years; while Dr. Partha Roy Chowdhury and Karnataka State Branch - Dr. B K Srivastava were awarded for the previous year.

While in the previous year Dr. B. Subhash Chandra Shetty Award for 'Best Local Branch Journal' was awarded to Dr. Namitha Divakar of Malabar Branch; Dr.Ganesh Bajaj - Nagpur Branch; Dr. Geon Pauly - Chalakudy Branch and Dr. AV Madhusoochanan - Coastal Malabar Branch.

Appreciation Award for 'Best State Student Activity' went to Kerala; Karnataka and Maharashtra State Branch.

IDA Thane Branch Award for 'All Round Activity Local Branch' was awarded to Malabar Branch; Amravati Branch; Mumbai West Suburban Branch; Coastal Malabar Branch; Nagpur Branch and Kolhapur Branch.

Dr. V.M.Veerabahu Runners Up Trophy 'All Round Activity Local Branch' went to Eranad Branch; Madras Branch; Gwalior Branch; Ahmednagar Branch; Wayanad Branch; Hadapsar Branch and Dewas Branch.

Dr. U.S.Krishna Nayak Trophy for 'Best Local Branch President' was awarded to Dr. Sudheer K.T of Malabar Branch; Dr. Puneet Thirani, Mumbai West Suburban Branch; Dr. Shreejan C.K. - Coastal Malabar Branch; Dr. Vaibhav Karemore - Nagpur Branch; Dr. J. Selvakumar, Madras Branch; Dr. Aditya Sandeep Kodati - Deccan Branch and Dr Padmavathi Devi Mahanthi of Kakinada Branch. Dr. I.R.Goela Award for 'Best Local Branch Secretary' went to Dr. B. Madhavankutty, Malabar Branch; Dr. Kiran Machave, Ahmednagar Branch; Dr. Akhil Bhaskaran, Coastal Malabar Branch; Dr. Viraj Sanghavi, Mumbai West Suburban Branch and Dr. AP Maheshwar, Madras Branch.

Dr. Keki Mistry Trophy for 'Scientific Activity' was awarded to Malabar Branch; Nagpur Branch; Coastal Malabar Branch; Mumbai West Suburban Branch; Ahmednagar Branch; Madras Branch and Karad Branch.

Dr. G.B.Shankwalkar Memorial Award for 'Best CDH Activity' went to Malabar Branch; Mumbai West Suburban Branch; Coastal Malabar Branch; Rajkot Branch and Madras Branch.

Dr. Vasania Trophy for ' Rural Activity' was awarded to Wayanad Branch; Gorakhpur Branch and Nagpur Branch.

Dr. J.M.Rao Trophy for 'Student Membership' was awarded to Nagpur Branch.

Dr. Ramakanth Venson Award for 'Student Activity' went to Deccan Branch; Malabar Branch; Nagpur Branch and Hassan Branch.

Dr. Achyut Deodhar Trophy for 'School Dental Health' was awarded to South Delhi Branch; Pune Branch; Mumbai West Suburban Branch; Kakinada Branch and Shrirampur Branch.

It is a matter of great pride for IDA members to be rewarded for their performance. A few images honoring the distinguished IDA officials for their noteworthy contributions are presented alongside.

Activity Reports on CDE, CDH, JIDA

Dr. Raju Biswas
Chairman, CDE

CDE Report

Dear Colleagues,

IDA has been organizing CDE programmes to offer ongoing education which is intrinsic in their delivering high quality dental and oral health care services. The primary objective of IDA's CDE programme is not just to update the clinical knowledge of dental graduates and practitioners, but also to exercise the degree of care and improve treatment methods that will be beneficial the patients. These CDE Programmes are in compliance with CDE Regulations approved by the Dental Council of India and the Ministry of Health & Family Welfare, Government of India. The regulations require all registered dental surgeons to obtain 100 credit points over a period of five years calculated at 20 credit points of CDE per year. It will be essential to achieve a minimum of 15 and a maximum of 25 points a year. At the same time, 10 points for asepsis and infection control and 5 points for dental jurisprudence over a period of 5 years are mandatory. I am pleased to report during the year under review CDE activities were carries out diligently at various branches.

IDA-Colgate sponsored CDE Programmes

Under the IDA-Colgate sponsored CDE Programmes were conducted at different branches. I take this opportunity to gratefully acknowledge the cooperation and support received from all concerned at IDA HO, State and Local Branches for the successful conduct of the CDE programmes.

Dr. R Ahmed Centenary Year Celebration programme Series:

Under the series there were 14 programmes held in the year 2020. The series was continued in the year 2021. The frequency of programmes increased and total 25 webinars were held which were relayed on public platforms, viz. , facebook page of IDA. Overall, more than 35000 dental professionals have benefited from the programme.

Global Continuing Education Programme

The Indian Dental Association (IDA) conducted 'The Global Continuing Dental Education Programme' (GCDEP) a collaborative program with FDI World Dental Federation and sponsored by Colgate at various planned locations in India as we are dedicated to bringing best practices and excellence to all that we serve and transforming dentistry for better health. The Global Continuing Education Programme was till recently known as FDI-IDA CDE Programme and is prompted by the objective of updating the clinical knowledge and skills of the dental professionals so as to render high quality dental care. There were 11 speakers (national and international) and 4 moderators who participated and enlightened the delegates with modern scientific knowledge. All sessions were relayed as per planned schedule on the webpage http://gcdep. ida. org. in

The Organising Committee remains indebted to Prof. Suan Phaik Khoo and all speakers and moderators for extending enormous cooperation and support in organising the programme on the virtual platform. We also thank officials of FDI and Colgate Palmolive (India) Limited for their cooperation and support in helping IDA to conduct this programme.

K. P. Senthamarai Kannan
Chairman, CDH

CDH Report

Dear Colleagues,

We are pleased to present to you that during the year under review IDA-CDH activities carried out include the IDA-Colgate Oral Health Month, National Oral Health Programme, Swachh Mukh Abhiyan, etc where we work in collaboration with community partners to increase access to oral health services by linking children, youth and families.

As you all are aware that the focus of IDA-CDH programmes are on promoting awareness of oral health and hygiene among the community through education and highlighting preventive measures. Oral health promotion is for upliftment of the oral health of the community rather than an individual and has a long-term impact. A community health awareness program has a positive effect and as seen during the year, the fifteenth edition of IDA-Colgate Oral Health Month, the CDH programme being implemented jointly with Colgate with the object of "Keep India Smiling", has a target coverage of over 6 million people where IDA affiliated member dentists participated. This has been a leading campaign for establishing and promoting improved oral health habits among the people. It has brought together a wide spectrum of awareness-related initiatives to highlight the importance of oral health, in particular, and overall health, in general among people who are at high risk of having unmet oral health needs.

Here, we are immensely grateful to the members, student volunteers, quite a few dental colleges, dental technicians and laboratories for their valuable contributions in catering to the socially and economically weaker sections of the community. Additionally, several oral check-ups for screening, risk assessment, counseling and anticipatory guidance, and referral to clinics were conducted under the National Oral Health Programme. Dental professionals, educators and a wonderfully diverse group of people from the private, nonprofit, and public sectors have helped with IDA-CDH.

We take this opportunity to acknowledge and appreciate the excellent cooperation and support received from all concerned at HO, the state and local branches without which a programme of this magnitude would not have been possible. Here once again, we must mention Ms. Svapna Khoppikar, Head, Professional Oral Care, from Colgate Palmolive for her proactive role in the success of our oral healthcare programmes.

Dr. B. V. Ramana Reddy
Hon. Editor – Journal

JIDA Report

Dear Colleagues,

I am very happy to report that since I took over as the Hon. Editor, JIDA has been coming out with regular issues of substance and quality, despite the continuing operational problems. This is consequent upon the refusal of the immediate past editor to comply with the requirements of a 'no objection certificate'. Notwithstanding the problems encountered, we have been serving the interests of members and subscribers. It's high time that a solution to the present impasse, i. e. , non-compliance of the requirements by the previous editor, is found soon.

Owing to the standoff IDA has been spending quite a huge sum of money by way of courier expenses to deliver copies to the subscribers, as we are not able to avail of the postal discount offered by the PATRIKA channel.

The editorial team would like to gratefully acknowledge the cooperation and support extended by the authors and subscribers, reviewers and the printers.

Indian Dental Association
Statement of Accounts for 2022-2023

The Annual Report of
The Hon. Treasurer For 2022- 2023

I am extremely happy to present to the members the audited statement of accounts for the financial year 2022-2023.

During the year under review, the IDA Head Office had received a total income of Rs. 8,43,10,752/- (Rupees Eight Crore Fourty Three Lakhs Ten Thousand Seven Hundred Fifty Two Only). The Excess of Income over Expenditure for the year had been Rs. 18,73,170/- (Rupees Eighteen Lakhs Seventy Three Thousand One Hundred Seventy Only).

IDA HO has a total number of Eight Fixed Deposit Receipts aggregating to Rs. 3,09,64,170/- (Rupees Three Crore Nine Lakhs Sixty Four Thousand One Hundred Seventy Only) as on March 2023. The Income and Expenditure account for the year 2022-2023 is attached to this report.

I thank all office bearers of IDA HO for their cooperation and support.

Yours sincerely
Dr. Deepak Muchhala
Hon. Treasurer

Independent Auditor's Report

Report on the Financial Statements

I have audited the accompanying financial statements of Indian Dental Association (Head Office), which comprise the Balance Sheet as at March 31, 2023, the Statement of Income and Expenditure Account (hereinafter referred to as Financial Statements) for the year then ended on that date annexed hereto.

Management's Responsibility for the Financial Statements

The Association's management is responsible for the matters with respect to the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Association in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed by ICAI. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Association and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted audit in accordance with the Standards on Auditing issued by ICAI.

Those Standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Association's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Association's Management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion on the financial statements.

Opinion

Further to my comments and **subject to the notes on accounts annexed thereto**, I report that :

1. I have obtained all the information and explanations which , to the best of my knowledge and belief, were necessary for the purpose of my audit;
2. In my opinion, proper books of account as required by law have been kept by the Association, in so far as it appears from my examination of the books;
3. The Balance Sheet and Income and Expenditure Account dealt with by this report are in agreement with the books of accounts;
4. In my opinion and to the best of my information and according to the explanations given to me, the said accounts,read together with the notes thereon, give true and fair view in conformity with the accounting principles generally accepted in India :

a. In case of Balance sheet, of the State of Affairs of the Association as at 31st March ,2023; and

b. In case of the Income and Expenditure Account , of the surplus of the Association for the year ended 31st March, 2023.

Indian Dental Association Notes Forming Part Of Accounts for year Ended 31ST MARCH, 2023

1. Accounts are maintained on cash system of accounting and Income and Expenses are accounted on receipt and payment basis except in respect of GST liability.
2. Fixed Assets are depreciated on written down basis at the rates prescribed as per Income Tax Act, 1961.We have not physically verified the Fixed Assets as on the date of Balance Sheet and relied on the details provided by Trustees/Committee.
3. Details of Life Members admitted during the year are pending for reconciliation with the amount of Life Membership fees received. Hence, we are unable to comment on the correctness of Life Membership Fees shown under the head "Subscription" in the Income and Expenditure Account of Life Members Account.
4. The Outstanding Balance in respect of Closing Loans and Advances, Deposit, Fixed Assets, Investment, GST Amount, is subject to confirmation, reconciliation and adjustment, if any.
5. All the expenses are authorized and approved by the Trustees / Committees and are incurred for the Objects of the Association.
6. Figures are rounded off to the nearest Rupee.
7. Previous year's figures are regrouped and I or reclassified, wherever necessary, to make them comparable.
8. Other Notes

Contingent Liabilities Bank Guarantees Given
As on 31-03-2023 Rs:- NIL
As on 31-03-2022 Rs:- 7,00,00,000/-

As per Report of Even Date.
